

WAREHOUSING & INTRALOGISTICS SOLUTIONS

ALSTEF
GROUP

ALSTEF GROUP: BEYOND AUTOMATION

60+ years experience in baggage, air cargo, warehousing & distribution, and parcel handling automation solutions.

Alstef Group designs, integrates and supports automated turnkey solutions for the airport, intralogistics and parcel markets. Its mission is to create **intelligent solutions** that not only meet the needs of its customers, but also provide them with the long-term benefits of a tailor-made automated system that is **eco-designed, efficient, scalable and innovative**.

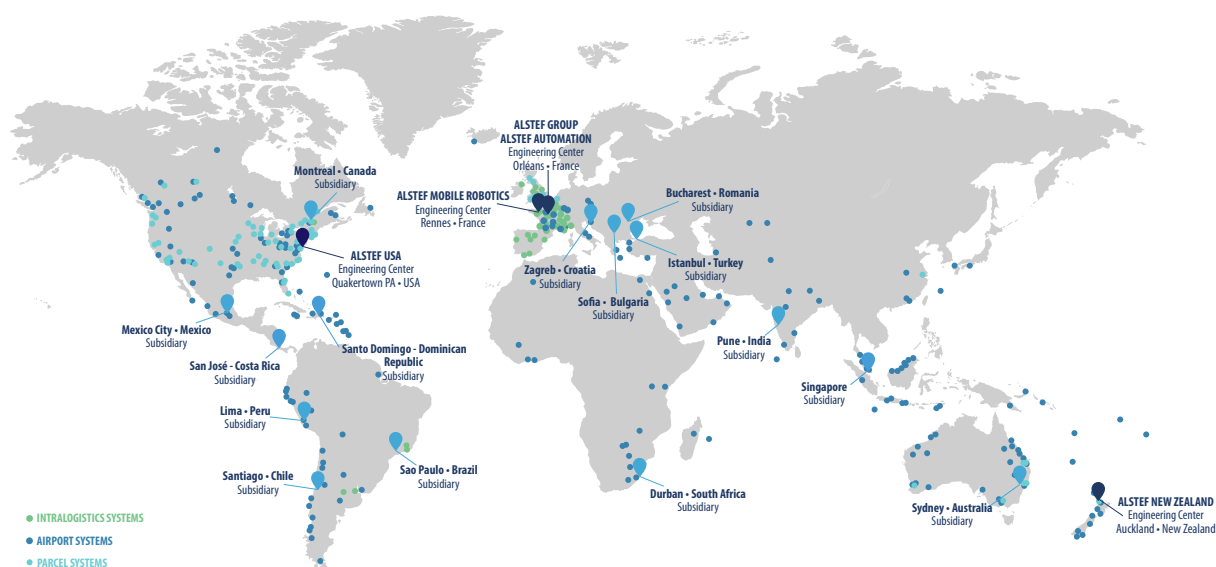

THEY TRUST US

OUR GLOBAL PRESENCE

Established in 18 countries with a diverse portfolio of systems installed in 94 countries across six continents, Alstef Group is powered by a team of 1,000 employees.

COMPLETE INTRALOGISTICS SOLUTIONS

Alstef Group relies on its expertise in turnkey projects and its wide selection of solutions to offer a tailor-made system, perfectly fitted to your needs.

For decades, Alstef Group has been designing, manufacturing and installing internal logistics flow management solutions for distribution centers and production sites.

Our mission is to fulfill our customers' diverse flow and storage requirements by developing comprehensive logistics systems tailored to their specific needs. We aim to create solutions composed of technologies precisely adapted to individual customer demands, ensuring they meet their objectives and accommodate changes in their operational activities.

ANALYZE

Analysis of customer needs, processes, data and performance criteria.

DESIGN

Tailor-made solutions to optimize performance.

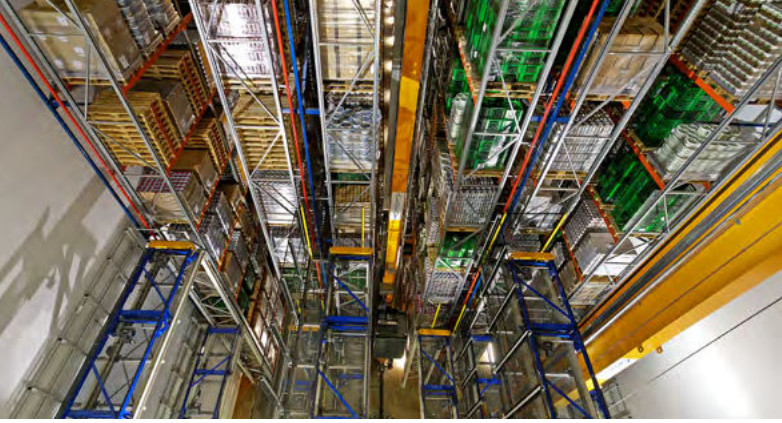

EXECUTE

Implementation and start-up assistance.

ONGOING SUPPORT

Guarantee your flows over time and support for your evolution.

OUR SOLUTIONS

Optimize your internal logistics, thanks to a wide range of solutions designed to automate and manage all your site's flows.

PRODUCTION, RECEIVING AND SHIPPING FLOWS

AGV (Automated Guided Vehicle), conveyors, shuttles: control your internal logistics with the automated management of your production, shipping and receiving flows.

MOBILE ROBOTICS • AGV-AMR

Alstef Group designs and manufactures a wide range of AGV-AMR that optimize your performances by moving and storing loads safely in your factories and warehouses.

AUTOMATED STORAGE

For over 60 years, Alstef Group has been offering turnkey automated storage and retrieval systems based on stacker cranes, AGVs and shuttles, perfectly fitted to your environment.

ORDER PICKING

Alstef Group offers comprehensive solutions for layer or package order picking, with Goods-to-Person or robotic systems.

FREE PRELIMINARY STUDY

Unlock the potential of tomorrow's logistics solutions today: we offer a free preliminary study of your automation project!

SYSTEM EXPERTISE

Leveraging our extensive experience and profound understanding of industrial processes, we integrate these capabilities into our **pre-sales and project management** endeavors, offering guidance, designing solutions, conducting **simulations**, and performing **detailed logistics analyses**.

SOFTWARE SUITE OPAL

Our global software suite OPAL controls the overall system to optimize **all your logistics flows**, AGV fleet, automated storage and order picking. OPAL WMS is based on a **secure, interoperable and scalable architecture** and provides system visualization, data analysis, operational tools, and comprehensive reporting.

CYBERSECURITY

Alstef Group supports you in the **implementation of your cybersecurity policy**. We adapt our infrastructures and services to meet the new cybersecurity challenges of the industry while continuing to guarantee the reliability of our systems. By working closely with our customers on these issues, we can understand the operational needs in terms of **securing the IoT**.

OUR SERVICE OFFER

Alstef Group offers a complete range of support solutions to extend the life of your system, and commits to a fully customizable contract with you.

MAINTENANCE CONTRACTS

Preventive or corrective maintenance, occasional visits or on-site presence of a dedicated team: choose your contract!

SOFTWARE SUPPORT

Our internet/dial-in-based 24-hour remote support provides immediate on-line system monitoring.

SPARE PARTS

Fast and easy access to spare parts is essential for the continuous, successful running of your system.

SYSTEM EVALUATION & INSPECTION

A complete audit of your system and support for your teams in monitoring the areas to be controlled.

We also offer **AGV-AMR training and support**. Our *Getting Started Modules* help you get to grips with our AGV systems and are provided as part of the initial commissioning. Our Qualiopi-certified *Operating Training Modules* are provided throughout the life of your installation to maintain or develop the maintenance skills of your team.

OUR ONGOING CSR COMMITMENTS

- Eco-conscious product design and a procurement policy that emphasizes environmentally responsible choices
- Prioritizing and advocating for products with minimal environmental footprints
- Driving responsible consumption and waste management and incorporation energy-saving measures
- Strategically designing our supply chain based on environmental criteria to minimize our ecological impact
