# CUSTOM SOLUTIONS FOR YOUR UNIQUE LABELING CHALLENGES

With over 40 years of experience in the material handling industry, our team of skilled engineers specializes in tailoring solutions to meet your company's unique print and apply requirements. Serving some of the world's largest retailers and couriers, we offer comprehensive services, including the design, installation, and maintenance of personalized print and apply labeling systems.

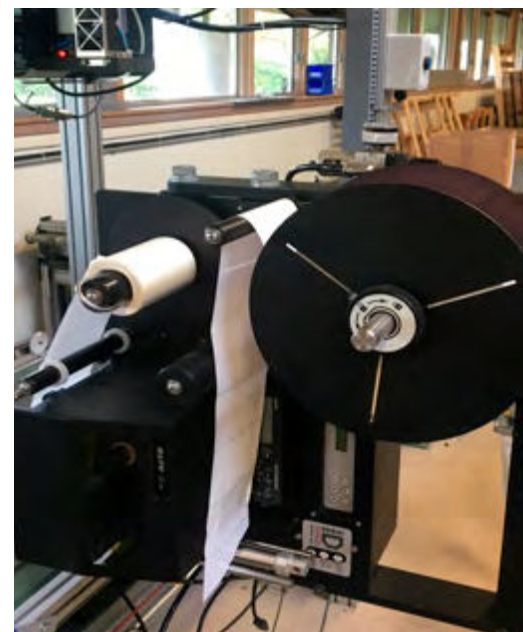

## SEAMLESS INTEGRATION

Experience a smooth integration with our comprehensive solutions that cover all your print and apply needs, including:

- Warehouse Management Softwares (WMS)
- Barcode Readers
- Scales
- Sorters
- Conveyors
- Unloaders
- Label Media
- Printer Heads Applicators
- Data Management Software

## INTEGRATE OUR LABEL PRINT AND APPLY SYSTEMS AT ANY STAGE OF YOUR MATERIAL HANDLING PROCESS

Effortlessly integrate our user-friendly systems into your workflow to increase efficiency and accuracy, and minimize errors. Achieve higher productivity and increased revenue with our systems, ensuring precise label placement on packages, even at high speeds.

### STREAMLINED PROCESSES

Our automated printing and application solutions provide user-friendly controls and enable seamless inventory tracking in the supply chain. This simplifies inventory management, reducing operator errors.

### APPLICATIONS

- E-commerce shipping labeling
- End-of-line product identification labeling
- Manufacturing product identification labeling
- Warehouse & distribution labeling

### REAL TIME DATA

Our label print and apply solutions software communicates with other system components, facilitating integrated operations with comprehensive reporting and diagnostics functionality.

### SCALABLE AND SUSTAINABLE

Our tailored solutions provide adaptability for your business. As your company and operations expand, you can easily accommodate growing orders and shipments by upgrading your system.
